Our release plans. **Important Update - AI and Matchmaking Coming Soon:**

Hey everyone, I wanted to send out an update so I could clear some confusion about what's happening with the game, and give some info on our next feature update!

We've all been reading the reviews, and I've seen quite a few negative ones. They mostly consist of:

- Unable to find other players.
- Sessions dying due to players quitting
- Minor (annoying), non gamebreaking bugs

So, here's what's happening on our side:

Player base. **Welcome to Mist of the Dark Community:**

Welcome to the first planned release from Visualistic Studios: **Mist of the Dark!**

Mist of the Dark is a 4v1 horror game. Play as the Soldiers working together to fend off your deepest fears, thrive together, or die alone in terror.

One player will control the monster; terrify your enemies, make your own jump scares, and be the last living thing around.

We plan on having regular gameplay updates (we will hash out a timeline later in the future as Early Access progresses) and to be as transparent as possible.

As it progresses we have more Monsters, more maps, and other goodies planned. We will always keep you updated.

Visualistic Studios will post regular bi-weekly or monthly announcements and news (more if needed), even if it's a simple timeline update.

We want to hear everyone in the community. Our goal is to make a game that everyone can enjoy, fueled by you, the players. Feel free to drop by our [Discord](#)[discord.gg] server to chat, form teams, and maybe even be a play tester!

Early Access release will be July 20th, 2018, and will be free. In the coming weeks we will implement a 'donation' feature if anyone feels like contributing.

All feature releases will be free. There will eventually be cosmetics you can purchase, but nothing pay to win, we are strongly against this model.

Thank you for going on this journey with us, and hope you are as excited as we are!
